

# TRIPLE H EQUITHERAPY CENTER

Providing people with disabilities and wounded warriors with nationally accredited equine assisted activities and therapy in a safe Hill Country environment.

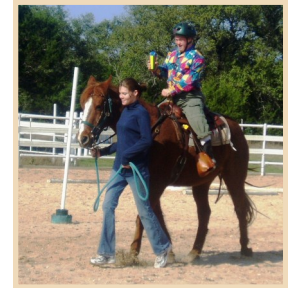

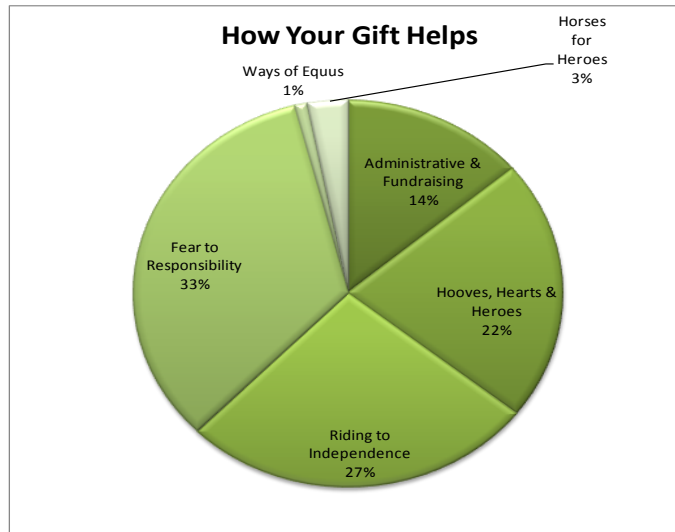

*"Riding therapy has helped me develop my core and lower back where most of an amputee's strength comes from."*

Sergeant Eric Morinte,  
USMC

*"Gehrig knows he's in command of this big animal and it does a lot to boost his confidence because there are a lot of things he can't do. He thrives out here."*

Kimberly, Gehrig's mother

*"Since Samuel's been coming out to Triple H, his trunk strength has improved a lot. He doesn't scissor as much because he gets a very nice stretch on the horse."*

Jennifer, Samuel's mother

*"I'm seeing an improvement in Jonathan's self-esteem, in his confidence level. He is interacting with other children here – not shying away from them."*

You too can share in our mission with your donations or by volunteering at Triple H Equitherapy Center.
