Horses Helping the Handicapped, Inc.

Helping Children & Adults with Disabilities, Wounded Warriors & At-Risk Youth Lead Healthier, More Productive Lives Through the

MAGIC OF HORSES

November 22, 2011

Dear Friends of Triple H:

We invite you to join in our efforts to bring the magic of horses to people with disabilities and at-risk youth.

For those with physical disabilities and wounded warriors, therapeutic riding offers a rare freedom of movement and a chance to develop core body strength. Children with cognitive disabilities often demonstrate learning breakthroughs when they take part in equine assisted learning activities. People with mental health issues can find inner peace when their therapy horse bonds with the wordless portion of their souls.

We witness small miracles almost every day - thanks to the magic of horses. Please choose a level of giving on our enclosed donor form and return it today. Your continued generosity will make a difference in the lives of the people with disabilities and at-risk youth we serve at Triple H.

Sincerely,

Loida Molloy
Executive Director
